Shambhavi Pandey

The-ShambhaviPandey | theshambhavipandey | theshambhavipandey@gmail.com | +91 7217615532 | theshambhavipandey.netlify.app

Technical Skills

Languages: Java, JavaScript, TypeScript, Python
Frontend: React.js, Redux, Tailwind CSS, Material UI, BootStrap
Backend: Node.js, Express.js, Microservices, OpenAI SDK
Databases: MongoDB, SQL, AWS S3
Tools: Git, GitLab, Postman, Figma, Thunder Client
CS: DSA, OOP, OS, DBMS, CN, C/C++
Learning: System Design, DevOps

Experience

Software Development Engineer May 2025 – Dec 2025
BusinessCurative (New Delhi) Live Project

- Built and shipped a production MERN eCommerce platform with a role-based architecture (Admin, Seller, Customer).
- Implemented core backend modules including authentication/authorization, seller onboarding, product listing, approvals, cart, and order workflows.
- Designed RESTful APIs and optimized MongoDB schema for efficient product and user query performance.
- Led deployment phase, managing CI/CD pipelines and coordinating production release using GitLab.

Projects

Agentic Honeypot System Live | Tester | GitHub

- Engineered an autonomous multi-agent honeypot using OpenAI SDK (GPT-4o-mini) to detect, classify (10+ scam types), and engage scammers.
- Built endpoint-driven architecture with a custom testing interface to simulate real scam scenarios.
- Developed regex-based engine extracting phone number, UPI IDs, bank details, links into structured JSON.
- Achieved 99.3% precision, 97.2% recall, 1.2s latency, 99.2% webhook success, $\sim$ \$0.003 cost/session.

Real-time P2P Deepfake Detection System GitHub

- Developed real-time P2P video calling using Node.js, WebRTC, WebSockets for low-latency streaming.
- Integrated deepfake simulation via face-swapping (swapface technology) and built detection using CNNs + ViT (PyTorch, NumPy).
- Deployed Flask-based inference API for real-time detection in live streams.
- Achieved 98.3% accuracy, 98.9% precision, 99.7% F1-score and won hackathon.

Education

Mahatma Gandhi Mission College of Engineering and Technology, Noida
Bachelor of Technology in Computer Science and Engineering Oct. 2023 – Jul. 2027

Achievements, Honours and Awards

- Grand Finalist at India AI Impact Summit 2026 Buildathon (HCL GUVI) Certificate
- Winner of Hackathon at Bharat Shiksha Expo 2025 Certificate
- 1st Runner-up at CDAC, Noida Hackathon
- Research paper in pipeline: *Securing Peer-to-Peer Communication with Deepfake Detection*
- Google Developers Group (GDG) on-campus Co-Organizer (GDGSC Co-Lead)
- OSCode MGMCoET Lead and OSCode Delhi-NCR Community Manager
